

CAREER OPPORTUNITY

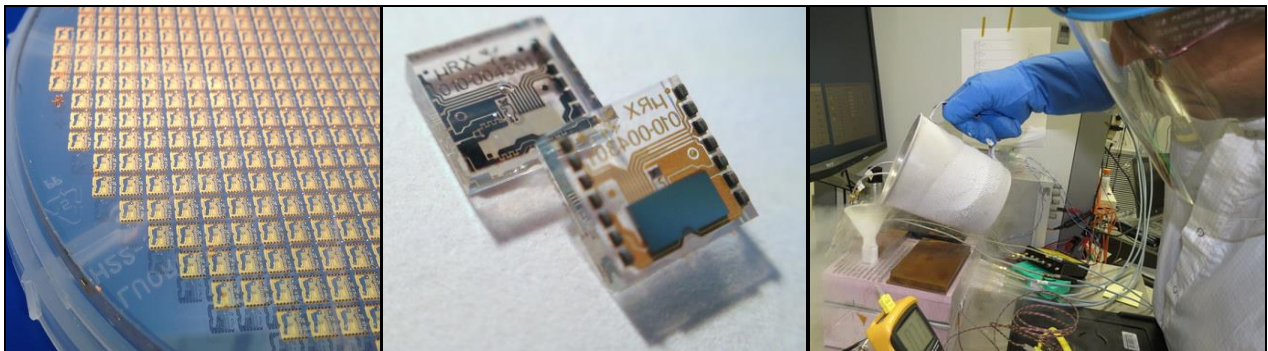

Long Term Temporary Manufacturing Assembly Technician

ABOUT ULTRA COMMUNICATIONS

Ultra Communications Inc. designs, develops and manufactures high performance optical interconnect solutions for High Reliability Space, Military/Aerospace, Marine, Industrial and Harsh Environment applications. Their patented designs and processes enable the highest performance, smallest footprint, highest reliability optical solutions available in the industry and are the only Radiation Hardened (Rad Hard) products available, anywhere in the world, for space applications. Located in Vista CA, UltraComm is currently ramping production capability to address their customers high volume product needs.

UltraComm is currently seeking candidates at all levels of technical capability with a passion and desire to be part of an exciting rapid-paced high technology company with excellent opportunities for personal and professional growth.

The environment is a unique combination of development lab and production facility with an atmosphere of family and professional camaraderie. If you relish challenges and enjoy creating never before possible products, UltraComm is the place for you.

Position Overview

Reporting to the Production Manager, the Assembly Manufacturing Technician collaborates with Opto-electronic packaging, test and process engineers on Mil-Aero grade optical interconnect components for applications in Space and other High Reliability/Harsh Environment systems. The successful candidate will be self-motivated, hands-on, detail oriented, goal driven and takes great pride in their work product.

About the General Responsibilities

- Run packaging assembly equipment, including but not limited to Flip Chip Bonders, Wire Bonders, Plasma Cleaners, adhesive dispensing and laser marking.
- Process product through the assembly line as indicated per travelers, drawings or work instructions.
- Perform optical inspections and measurements of products to ensure quality requirements are met.
- Enter pertinent data into log files and Manufacturing Execution System (MES) for appropriate lot and data tracking.
- Assist Production and Process Development Engineers in building complex Opto/Electronic interconnected products.
- Provide feedback to engineering teams on equipment, product or process issues/improvements
- Other duties as assigned

Job Knowledge, Skills & Abilities:

- Familiar with manufacturing processes (Wire Bonders, Plasma Cleaners, Laser marking and Microscopes)
- Knowledge of the direct SMT/Die Attach/Wire bond equipment operations are strongly preferred.
- Proficient in Microsoft Office Suite
- Able to read Technical drawings is a plus
- Must demonstrate excellent communications clearly through written and verbal means.
- Be able to read, comprehend and execute complex instructions
- Must possess positive, effective communication skills with the ability and desire to grow
- Experience in semiconductor packaging assembly processes a plus
- Good manual skill and micro operation skills required

Experience/Education

- High School Diploma or GED required
- Some college a plus
- Technical certification or Associates degree preferred
- 4+ years in opto/electronic semiconductor assembly preferred
- Excellent manual dexterity and micro manipulation skills required

Due to our government contracts and ITAR compliance, all candidates must be US Citizens or Permanent Residents.

Please send resume and cover letter to CAREERS@ULTRACOMM-INC.COM.

Qualified individuals being considered will be contacted for interview.

UltraComm supports a diverse workforce and is committed to a policy of equal employment opportunity for applicants and employees. UltraComm does not discriminate on the basis of age, race, color, religion (including religious dress and grooming practices), sex/gender (including pregnancy, childbirth, or related medical conditions or breastfeeding), gender identity, gender expression, genetic information, national origin (including language use restrictions and possession of a driver's license issued under Vehicle Code section 12801.9), ancestry, physical or mental disability, legally-protected medical condition, military or veteran status (including "protected veterans" under applicable affirmative action laws), marital status, sexual orientation, or any other basis protected by local, state or federal laws applicable to the Company. UltraComm also prohibits discrimination based on the perception that an employee or applicant has any of those characteristics or is associated with a person who has or is perceived as having any of those characteristics.
